

Collaborative Learning Network: Monthly billing and coding forum

Aledade

In partnership with Forvis Mazars, Aledade is launching a new monthly educational series designed to support community health centers (CHCs). This recurring webinar series will create a collaborative learning space for health center billing and coding professionals. It will provide essential guidance, networking opportunities and a reliable resource to address real-world billing challenges.

Our goal is to equip CHC billing and coding teams with a strong knowledge base to confidently navigate billing practices in today's value-based care environment.

for Monthly
Webinars](#)

What to expect

- **Focused topics:** Timely, relevant billing and coding content tailored for CHCs
- **Expert-led sessions:** Led by billing and coding specialists from Forvis Mazars
- **Peer networking:** Engage with fellow billing professionals across CHCs
- **Live Q&A:** Bring your questions, share insights and learn together
- **Post-event resources:** Recordings, slides and additional tools you can reference anytime

Why attend?

- Strengthen your understanding of billing and coding fundamentals
- Gain confidence supporting your center's value-based care goals
- Build a connected, informed billing community across the CHC network
- Use this series as an ongoing training and support tool for your team
- Regularly monthly touchpoint for all your billing and coding questions

Who should attend?

Billing professionals | Coding specialists | Revenue cycle managers | Administrative support staff
