

Aledade ACOs helped 2M+ patients achieve better health through more proactive care, saving more than \$500M in 2022.

Nearly 100% of primary care practices, health centers and clinics in our ACOs earned shared savings.

Since the onset of the national shift toward a health care system based on value rather than volume, thousands of practices, clinics and community health centers across the country have stepped forward to lead that transition - and rightfully so. Time and time again, the data has proven that when we empower primary care physicians with the tools and resources to deliver comprehensive, quality care, they improve patient outcomes and lower health care costs.

Aledade has been at the forefront of that charge. Across the nation, we have shown that properly resourced, financially aligned, and empowered primary care can deliver exponential cost savings while significantly improving patient care.

Annual Wellness Visits

11%

increase in AWV delivery, facilitating **508K+** patients with proactive preventive care

Hospitalizations

9%

reduction in patient stays, avoiding **46K+** hospitalizations

*Shared savings not guaranteed. Multi-payer figures are estimates and pending payer reconciliation. Amounts shown are per unique TIN participating in an health plan ACO.

Our value-based care network now encompasses 45 states – and we're growing quickly.

Primary care organizations nationwide have been missing a business model that truly rewards their value and gives them the credit they deserve. And that's exactly what Aledade delivers.

As a best in class ACO with proven success managing risk and a broad roster of payer contracts, we know most practices, clinics and health centers need help transitioning to value-based care. We provide the technology, resources and protection from downside risk that create both financial rewards and improve patient health.

The Aledade Commitment

Empowering primary care to succeed in value-based care models creates healthier patients and communities, at lower cost for all. As a public benefit corporation, our mission to reinvent health care is at the center of every business decision we make. When you join our mission and model, we:

- Protect your role as the leader of patient care;
- Provide the support your staff and patients need; and
- Share equitably – only making money if you do.
