

# Our value-based care network encompasses more than half the nation – and we’re growing quickly in Oregon.

Primary care practices, community health centers, and clinics in Oregon have been missing a business model that truly rewards their value and gives them the credit they deserve. Our track record of success proves that when primary care organizations have a reliable, transparent, and committed partner, they thrive in value-based care. We are proud to be that partner in the Beaver State.

## The Aledade Commitment

Empowering primary care to succeed in value-based care models creates healthier patients and communities, at lower cost for all. As a public benefit corporation, our mission to reinvent health care is at the center of every business decision we make. When you join our mission and model, we:

- Protect your role as the leader of patient care;
- Provide the support your staff and patients need; and
- Share equitably – only making money if you do.
