## — At A Glance —

## 5 WAYS the Daily Huddle

### Helps Your Practice Today

- 1** Access insights into recent specialist utilization, hospital and ED events, and gaps in preventive or routine care 
- 2** Review medication adherence and related cost information for improved patient engagement 
- 3** View and modify diagnosis suggestions to appropriately capture patient acuity so nothing falls through the cracks 
- 4** Deliver more coordinated, proactive, and comprehensive care to keep patients in better health, resulting in fewer hospitalizations and unnecessary ED use 
- 5** Streamline workflows, equipping physicians, nurses, care managers, billing staff, and executives with crucial data for informed decision-making 

The Aledade App's unique Daily Huddle feature delivers access to integrated data, patient prioritization tools, and care management features. The Daily Huddle supports better outcomes and higher-value care for your patients with streamlined workflows and enhanced engagement insights for your staff.

## What is the Daily Huddle?

Primary care practices need to stay one step ahead of the health issues that lead to poor outcomes. The Daily Huddle empowers your practice with the ability to personalize care for patients with access to data, when and where it's needed.

The Daily Huddle surfaces untapped patient data to help you provide high quality, coordinated, and whole patient care. This unique feature consolidates data from multiple sources to save time and enables care teams to "see" a snapshot of a patient's healthcare story in one view so they can focus on the most impactful and actionable data at the point of care.
